600V

ADVANCED DIGITAL COPYING  
DESIGNED TO DRIVE YOUR  
PRODUCTIVITY TO NEW HEIGHTS.

In today's fast-paced business environment, you need solutions that deliver what you want, when you want, every time. The Canon imageRUNNER® 600V device is equipped to easily handle your most demanding copying needs with high-quality, production-level output and features that are specially designed to optimize performance and simplify tasks. When you're looking for a fast-paced solution to keep up with your work environment, look to the Canon imageRUNNER 600V device. It's the complete digital copying system that makes you look and perform your best.

With a 60-page-per-minute copy speed and standard automatic duplexing, the imageRUNNER 600V device has the ability to complete all your copy jobs quickly to help keep your department moving.

Tired of having to reload paper in the middle of a long run job? You'll never have to worry about it again with the imageRUNNER 600V model. It has a standard paper capacity of 4,150 sheets, upgradable to an enormous 7,650-sheet maximum capacity.

Time-saving features allow you to spend more time doing your job and less time waiting at the device. With Scan-Once-Print-Many, you can enter a job once and output multiple copies. Copy Reservation™ allows you to store a copy job in memory while a current job is being processed.

Create professional-looking output in-house with the optional Finisher-D1's ability to staple up to 50 sheets in any corner of the page, or place two staples in the left- or right-hand margins.

Once again, you can count on Canon to provide you with solutions to fit your needs and budget, bringing your department to new levels of productivity and efficiency.
